ABOUT ME

I'm a Computer Science graduate driven by a love for building web applications that solve real problems. My experience spans frontend and backend development, working with databases, and exploring machine learning projects. I'm continuously learning and enjoy collaborating in team environments to bring ideas to life.

SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React.js, jQuery
Backend: PHP, Node.js, Express.js, Python
Database: MySQL, PostgreSQL, MongoDB
Web Technologies: AJAX, RESTful APIs, Stripe (payment integration)
Version Control: Git and GitHub
Caching & Performance: Redis
Other: Debugging, Agile Collaboration, Task Management

EDUCATION

North South University
BSc in Computer Science and Engineering (2020 – 2024) | CGPA: 3.04

Jatir Janak Bangabandhu Sheikh Mujibur Rahman Govt. College
HSC (2019) | GPA: 3.92

Gulshan Model High School
SSC (2017) | GPA: 5.00

WORK EXPERIENCE

Web Developer Intern, TaskirsView (Remote)
October 2024 - February 2025
• Redesigned and optimized web pages for performance and responsiveness.
• Built feature-rich pages in Agile teams, following design guidelines.
• Implemented modular code for maintainability and clean practices.
• Participated in standups and sprint reviews.

Grocery Store Admin Dashboard (Ongoing)
Tech Stack: React.js, HTML5, CSS3, Tailwind CSS, DaisyUI
• Designing a full admin dashboard for inventory and sales.
• Reusable components increased development speed by 40%.
• Mobile and desktop responsive design.

PROJECTS

Skill Connect – Online Job Portal
Tech Stack: HTML5, CSS (Bootstrap), JavaScript, PHP, MySQL, Redis, Stripe, AWS
• Full-stack portal with job seeker/employer dashboards.
• Real-time job search with AJAX and lazy loading.
• GitHub OAuth and Stripe integration.
• Redis caching for performance. Live link.

AccessoSync – E-commerce Web Application
Tech Stack: MERN stack (MongoDB, Express, React, Node.js)
• Scalable app with user authentication and role-based access.
• Product filtering and real-time cart updates. Live link.
